

Josh Huber

Front End Software Engineer

Summary

Highly motivated, skilled front end software engineer with professional experience building applications. Strong background in JavaScript, web standards, open source, and with roll-up-your-sleeves startup energy. Proficient in communication, leadership, and project management skills. Experience with a wide range of software libraries, tools, and languages. Able to plan & lead project life cycles. Patient and calm with excellent interpersonal abilities. Skilled at listening and gathering information. Excellent at research and problem finding.

Experience

Jun 2017 - present

Front End Software Engineer

Postamo

- **Front-End Lead** in charge of empowering real estate agents with the ability to quickly create ads, posts and landing pages using Facebook, Instagram, Twitter and LinkedIn **API's**.
- Instrumental in overhaul of monolithic **jQuery** site to **React/Redux** app, enabling users to track advertisements in near-real time.
- Develop server side landing page **React.js** app leading to 3x faster page load times and much improved **SEO** rankings.
- Execute daily code deployments to **AWS - Elastic Beanstalk** using **Node.js, Babel, Webpack** and Multi **Docker** containers.
- Add **Google Analytics** and **Mixpanel** to track web and mobile events like agent and user behavior.
- Collaborate with Product and UX. Often creating **Sketch** files then implement designs in **JavaScript** and **CSS**.
- Create and manage **MailChimp, Mandrill, SendGrid** email marketing campaigns to work across email clients.
- Active in **Agile** process, weekly sprints, daily stand ups and **Pivotal** tickets to track App development.

Jan 2017 - Jun 2017

Front End Software Engineer

School to Career

- Lead a team of 4 developers using **React.js** and **Redux** to create a responsive single page app displaying data on over 7,000 schools.
- Implemented **Google Maps API** populating individual schools while the user interacts with the map.

Mar 2014 - Feb 2016

Front End Developer

Active Tours

- Developed Wordpress website in **JavaScript, CSS, HTML** and **PHP**.
- Added **Google Analytics** and **Google AdSense**.

Education

Jan 2017 - 2017

Learning Fuze

- Software Dev Bootcamp where I led teams to win 3 out of 3 hackathons.
